PO Box 550
Red Lake, MN 56671

Dear Chairman Jourdain,

Garden Valley Telephone Company serves the Gonvick telephone exchange which covers a small portion of the Red Lake Nation lands. Our plan is to complete a fiber to the home rebuild of this exchange during the summer of 2014, placing approximately 3 miles of new mainline fiber cables to serve the 6 Garden Valley Telephone Company subscribers who live or have service within the borders of the Nation. While we can already provide telephone and broadband Internet speeds, the new facilities will be able to provide even faster speeds, and make our video service available at each location. The Goodridge, Grygla, and Gully exchanges which also cover lands within the Red Lake boundaries have been converted to the fiber to the home design in the past.

While we anticipate our main contacts for construction on tribal owned lands to remain the Red Lake Agency of Land Management, Highway Engineer, and Tribal Heritage Preservation Office we have worked with in the past, we would like to ask for any input you or any of your staff may have, or answer any questions that anyone might have.

Garden Valley is proud of the services we are able to offer to our subscribers, and these upgrades are part of the commitment we have as a cooperative to offer the services needed by our customer/owners. I look forward to hearing from you or your representatives, and welcome any comments you might have. I can be reached by telephone at (218) 687-2400 or by email at gfish@gvtel.com.

Dear Chairwoman Vizenor,

Garden Valley Telephone Company serves the Lengby and Minerva telephone exchanges, both of which cover portions of the White Earth Reservation lands. Our plan is to complete a fiber to the home rebuild of these two exchanges during the summer of 2014, placing approximately 90 miles of new mainline fiber cables to serve the 650 Garden Valley Telephone Company subscribers who live or have service within the borders of the reservation. While we can already provide telephone and broadband Internet speeds, the new facilities will be able to provide even faster speeds, and make our video service available at each location. The Fosston and Bagley exchanges which also cover lands within the White Earth boundaries have been converted to the fiber to the home design in the past 3 years.

While we anticipate our main contact for construction on tribal owned lands to remain the Land Office Manager we have worked with in the past, we would like to ask for any input you or any of your staff may have, or answer any questions that anyone might have.
